DESIGN

ABOUT US

At PrestoneX Design, we collaborate closely with architects and designers to create and craft extraordinary surfaces, art pieces, and artifacts. Inspired by the rich traditions of ancient Indian and European art and craftsmanship, our work incorporates timehonored techniques such as stone carving, inlaying, pietra dura, sculpting, chiseling. By blending semi-precious stones, exotic marbles, and unique rocks, we craft stunning, bespoke homes that elegantly marry traditional artistry with contemporary aesthetics

We ensure timely delivery, with reliable shipping services that guarantee your order arrives safely, allowing you to enjoy our creations without delay.

With utmost care, we lovingly package each item, ensuring it arrives in perfect condition, reflecting the beauty and craftsmanship of our creations.

By adopting eco-friendly practices in sourcing and processing semi-precious stones, we ensure minimal environmental impact while preserving the beauty and uniqueness of each piece.

We rigorously test and inspect every piece, ensuring unparalleled quality. Our commitment to excellence guarantees that each creation meets the highest standards of craftsmanship.
